

LET'S DO THE WORK.™

CAT® POWER TOOLS FROM THE BRAND YOU CAN TRUST

In every corner of the world ,you'll find a Cat® machine.

Cat® is recognized as the leader in building and construction. Globally, the Cat® logo has become an icon, often worn as a badge symbolizing grit, toughness and a get-it-done attitude.

Cat® products are engineered for superior performance, designed to last, and backed by the largest, most experienced dealer support network in the world.

BRUSHLESS MOTORS

Best-in-class brushless motor and precise electrical control technology deliver the ultimate performance, durability and run-time.

10X LONGER MOTOR LIFE

Brushless motors have fewer wearable moving parts resulting in increased motor life.

50% MORE RUN TIME

Carbon brush resistance is eliminated, so less battery energy is wasted.

The efficiency of a brushless motor results in a greater run time from each charge.

25% MORE POWER

Fewer moving parts results in a quiet motor that never needs maintenance. The reduced friction enables a better use of available energy from the battery pack as there is no resistance from brushes.

SHAREABLE BATTERIES & CHARGERS

All Cat® batteries and chargers are compatible across the entire line of 18V power tools. One interchangeable system charges every Cat® power tool.

BATTERY TECHNOLOGY

Cat® batteries are designed for professional applications to power heavy loads and maintain a charge during long, continuous work times.

The Cat® battery protection system optimizes and prolongs run times for maximum use and safety.

CHARGERS

Cat® lightning fast chargers fully recharge Cat® 18V 5.0Ah graphene batteries in just 20 minutes.

The Cat® Charger system is designed to optimize charging by balancing the charge between each cell to maximize battery performance and run times. So your Cat® tools are always ready to go when you are.
